

PRESS RELEASE

Kempfen Capital Management further invests in Client Solutions' digital service offering

Amsterdam/'s-Hertogenbosch, the Netherlands, 1 July 2020

Van Lanschot Kempfen is happy to report that Kempfen Capital Management (Kempfen) has added six specialist employees who will specifically focus on further enhancing the digital services offered by Client Solutions, with an emphasis on institutional, fiduciary clients. The knowledgeable team is based in Switzerland, and also contributes to the further development of our private banking services within Van Lanschot Switzerland.

The five senior employees who have made the switch from Altis Switzerland and the one senior employee who has joined Kempfen from Corestone will contribute particularly to the further enhancement and expansion of manager monitoring services and digital client communications at Kempfen Client Solutions, while also supporting Van Lanschot Kempfen's existing Swiss offices in their activities.

Gerard Roelofs, Head of Client Solutions at Kempfen, commented on the appointments: "These six professionals are at the top of their fields, both within and outside the Netherlands. Their joining our company is excellent news for our clients, as it will allow us to improve and expand the quality of our service even further. Our clients increasingly require information based on new data analytics techniques and ever-deeper levels of accountability. In addition, the importance of data analysis in ESG, manager selection and manager monitoring is growing exponentially."

Katja Kok, CEO of Van Lanschot Switzerland, added: "The appointment of our new Kempfen colleagues in Switzerland perfectly fits in the expansion of our proposition in Switzerland and creates more synergies between our various businesses. This reflects our commitment to further expand to family offices and semi-institutional players. We're proud of this reinforcement of our team and this highlights our aspirations in Switzerland."
